Hilversum, The Netherlands – 15 May 2025 - Present

Nature of Business: Recruitment

Responsibilities

As a Senior Software Developer contracted on premise to Pinkroccade, I focus on the iBurgerzaken platform. My work involves implementing new features and resolving existing issues and integrations between Blueriq and the Core java platform.

Technologies

Java (17,21,25), Spring Boot, Kubernetes, Blueriq Java Integration, Gitlab CI/CD, PostgreSQL

Ir Olav Globetrattors South Africa

Senior Software Developer,

Pretoria, South Africa – January 2025 - 14 May 2025

Nature of Business: Recruitment

Responsibilities

As a Senior Software Developer contracted remotely to Pinkroccade, I focus on the iBurgerzaken platform. My work involves implementing new features and resolving existing issues and integrations between Blueriq and the Core java platform.

Technologies

Java (17,21,25), Spring Boot, Kubernetes, Blueriq Java Integration, Gitlab CI/CD, PostgreSQL

Interfile

Senior Software Developer,

Fourways, South Africa – January 2023-January 2024

Nature of Business: Local Government Services in South Africa

Responsibilities

I work on multiple projects such as CSOS and on the Government UIF online services team.

I also work as a part of the R&D team where I give guidance and assist in designing upcoming solutions and proof of concepts.

There are large areas of improvements, currently a lot of projects are sitting on a very mature but old code base that was built for Java EE (pre Jakarta) and Primefaces 6.

I am part of the modernisation team working on migrating parts of the internal systems to Spring Boot and newer versions of EE and React.

I also part of our internal technical architecture group where we review current and upcoming projects. I work with a large team of junior developers that we train.

Technologies

Java, Java EE, Spring Boot, Kubernetes, Payara/Glassfish, Teamcity CI/CD, Bitbucket CI/CD, IBM MQ, Rabbit MQ, Microsoft SQL Server, PostgreSQL

Acrontum

Senior Software Developer,

Barthstraße 4, 80339 München, Germany – January 2023-January 2024

Nature of Business: Software consultancy

Responsibilities

Senior software developer working on a project in BMW München for the AOS2 (After sale service) team.

Technologies

Java, Quarkus, Kubernetes, NodeJS

Marketplace Superheroes

Senior Software Developer, Team Lead, Unit 2g, Redwither, Tower, Wrexham,

United Kingdom – September 2021-December 2022

Nature of Business: Warehousing, Amazon Marketing.

Responsibilities

Managing team's daily tasks and priorities

Backend development on Warehousing platform (mpshecosystem.com/)

Company side projects such as Escape Ordinary (escapeordinary.net/)

Fingerprinting and User data collection and reporting.

I was also incharge of Infrastructure management, server and build server management on our cloud environment and building out our CI/CD pipelines and building internal tools and dashboards for monitoring.

Technologies

Java, Spring, Spring Boot, Spring Batch, NodeJS, React, AWS, Kubernetes, MySQL, PostgreSQL, PHP, Terraform, Ansible, Rundeck, Prometheus, Grafana

Qode Healthcare Solutions

Senior Software Developer, Pretoria, South Africa — March 2018–September 2021

Nature of Business: Public & Private Healthcare Services.

Past Responsibilities

iOS Development and Guidance

Backend development for Client Licensing Services related to the PMA software

Infrastructure Maintenance for the PMA Services.

Public Healthcare Devision Lead Backend Developer and Internal HR Platform developer.

Maintenance of the Current Public Healthcare Server related to Lynx and Services on Azure Cloud.

Technologies

Java, Spring, Spring Boot, Vaadin, Swift, Kubernetes, RabbitMQ, Microsoft SQL, Azure, Grafana

Comb Communications

Software Developer, Midrand, South Africa — 2015-2018

Nature of Business: Access Control & Security

Responsibilities

Development of new features for the Java Primefaces Java EE backend

Maintain current Java Spring based backend with minor bug fixes

Development of Apache NiFi data data flows

Release Management of Android Apps

Infrastructure Maintenance

Production & UAT server maintenance & installations

Server Automation via Ansible

Backup & Disaster Recovery

Server monitoring via Influx, Riemann and Grafana.

Technologies

Java EE, Spring, Cordova, Android, Xamarin, Docker, Apache NiFi, Infrastructure management.

Consultant, Absolutgroup
